3,800 Kg	6 – 8.4 m	DB7	£14,560
3,100 Kg	5.1 – 7 m	DB6	£13,800

Selecting your lift

- **Select a lift based on maximum loaded weight of the boat. The boats maximum loaded weight must not exceed the Maximum Lift Capacity.**
- **We offer two lift types, Standard and XL. The XL range has increased lift capacity for heavier boats.**
- **The DB Model number refers to the length of the DryBerth in meters and would typically be 1 – 2 meters less than the overall boat length.**

This is a guide price - Please complete the contact form on our website to allow us to advise on the best DryBerth solution for your application

General Notes

- Prices include a removable blower box (requiring a 240v/16a supply)
- An additional fee will be charged for delivery, installation and onsite craneage
- Rental customers may switch between models during a rental period (e.g., If changing boats) this will incur a delivery and swap out fee.
- All prices are subject to VAT
